01 ABOUT US AND OUR COMPANY

Element Consulting Engineers, (Registration No 2002/444) is a firm of multi-disciplinary Consulting Engineers. We have gained extensive experience in the fields of Civil Engineering, Contract Administration & Supervision, Electrical Engineering, Mechanical Engineering, Roads & Transport Engineering, Structural Engineering and Water & Sanitation Engineering. We also offer expertise in the areas of Agricultural and Dam engineering, Project Management, Facilitation, Property and Tourism Development as well as Asset Survey & Management.

The company is young and dynamic with an average employee age of 33. This has been achieved by the appointment of young, enthusiastic engineers since 2008 who are being continuously mentored and trained to become Professional Engineers and most are now ready to become part of the Management team for Element. Our head office is in Windhoek, with an office in Ongwediva, and a recently opened office in Swakopmund to serve the Coastal/Erongo region

COMPANY OVERVIEW

- Engineering Bursary Scheme since 2008
- Joint-Ventures and Technical Exchange with Consulting Firms owned by Previously Disadvantaged Namibians.
- Corporate Social Responsibility projects

The Company strives to achieve excellence in all the services it provides and to provide meticulous attention to detail whether projects are large or small. It is an independent company with no obligations to or ties with any commercial concern which could influence the professional judgment, recommendations or decisions given by the Company.

CORPORATE OBJECTIVES - MISSION CLIENTS

To provide a professional service of the highest standard that meets the client's requirements regarding costs, duration and management.

COMMUNITY

To undertake projects in cooperation with communities to meet the needs and aspiration and to provide employment opportunities which contribute towards the overall benefit of the country.

ENVIRONMENT

To design and manage the implementation of projects in such a manner as to minimise any pollution, harm to the environment, or ecological disturbance; furthermore, to strictly adhere to the regulations of relevant authorities.

STAFF

To maintain a well-qualified and efficient staff complement through the provision of good remuneration packages, pleasant working conditions, recognition, excellent resources, efficient leadership and a friendly working environment.

LONG TERM OBJECTIVES - VISION

To continually meet the objectives listed above and to maintain growth, but to remain small enough to still manage, at management level, each project in all its phases: report, design, documentation, project management and administration.

Therefore, we strive to ensure that at the completion of a project, all parties involved will be satisfied with the service and the product, which was produced on time and within budget.

ARTHUR LOFTIE-EATON
Managing Director

HENTIE KOTZE
Director: Roads

KASSIE COETZEE
Director: Structures

RINUS VAN ROOYEN
Director: Elec/Mech

JAMES TURNER
Non-Executive Director

KENNETH BRITZ
Associate: Structures

PEET BEZUIDENHOUT
Associate: Roads & Transport

OUR SERVICES

02 ENGINEERING SERVICES

TRANSPORTATION ENGINEERING

- Planning and design of national roads
- Material investigation
- Visual inspections
- Geometric design
- Pavement design
- Urban transport
- Transport networks and road pavements
- Mining haul roads

CIVIL ENGINEERING

- Planning and design of bulk earthworks and engineered fills
- Hydrology and hydraulic calculations for defined and undefined watercourses
- Planning and design of surface and sub-surface storm water systems, major bridge structures, road, water, sewer and storm water networks
- Planning and design of small, medium and large Water Treatment Works (WTW) and Waste Water Treatment Works (WWTW)
- Process design by affiliated specialist

STRUCTURAL ENGINEERING

- Reinforced concrete structures, pre-stressed and post-tensioned concrete structures
- Structural steel, including heavy and lightweight steel structures
- Masonry and timber structures.

CONSTRUCTION PROJECT MANAGEMENT

- Project initiation and briefing
- Finalization of the project concept and feasibility
- Manage, co-ordinate and integrate the detail design development process within the project scope, time, cost and quality parameters
- Establishing and implementing procurement strategies and procedures, including the preparation of necessary documentation for effective and timeous execution of the project

ELECTRICAL ENGINEERING

- Planning, design and detailing of Low, Medium and High Voltage services (LV, MV and HV)
- Standby power systems
- Lightning and surge protection
- Access and time control systems
- Closed-Circuit Television (CCTV) surveillance systems
- Fire detection and extinguishing systems
- Internet services distribution
- Measurement and control systems

MECHANICAL ENGINEERING

- Heating Ventilation and Air Conditioning (HVAC)
- Hot and cold water reticulation
- Lift specifications
- Project engineering services

FIRE ENGINEERING

- Fire rational designs
- Fire protections
- Sprinkler designs
- Smoke ventilation

03 CERTIFICATION AND ASSOCIATION

- Association of Consulting Engineers of Namibia (ACEN)
- Engineering Council of Namibia (ECN)
- Engineering Council of South Africa (ECSA)
- South African Institution of Civil Engineers (SAICE)
- Engineering Professions Association Namibia (EPA)
- Namibia Preferential Procurement Corporation (NPPC)
- PI Insurance – Santam Namibia Limited
